

Column Name	Variable	Description	Variable type
country	country name	Name of African country	character
population	Population	Population of country	numeric
land_area	Land area	Land area of the country (in square km)	numeric
urbanization_rate	Urbanization rate	% of population in urban areas	numeric
median_age	Median age	Median age of population	numeric
gdp	GDP per capita	GDP per capita in USD	numeric
hdi	Human Development Index	Human Development Index	numeric
poverty_rate	Poverty rate	% of population below poverty line	numeric
electrification_rate	Electrification Rate (% of population with access)	% of population with access	numeric
electric_power_consumption	Electric power consumption (kWh per capita)	Average per-person electrical energy used over time, measured in kilowatt-hours	numeric
urban_access_electricity_rate	Urban Access to Electricity	% of urban population with electricity connection	numeric
rural_access_electricity_rate	Rural Access to Electricity	% of rural population with electricity connection	numeric
SAIDI	Supply Reliability (SAIDI/SAIFI, hours of outage/year)	SAIDI = Total outage time ÷ total customers	numeric
SAIFI	Voltage Quality / Frequency Stability	SAIFI = Total interruptions ÷ total customers	numeric
ENS	Energy Not Supplied (ENS) tWh	$ENS = \sum(\text{load} \times \text{outage time})$	numeric
OCRR	Operating Cost Recovery Ratio, Excluding Subsidies	Share of operating expenses covered by cash collected from sales	numeric
ODCRR	Operating and Debt Cost Recovery Ratio, Including Subsidies	Share of operating expenses covered by subsidies and cash collected from sales	numeric
LTUaC	Lifeline Tariff Usage and Coverage	Number of customers on lifeline rates (or free basic services)/Total Customers	numeric
ODSCR_sub	Operating and debt service cost recovery, including subsidies	Share of operating expenses and debt service covered by cash collected from sales	numeric
ODSCR_no_sub	Operating and debt service cost recovery, excluding subsidies	Share of operating expenses covered by cash collected from sales	numeric
collection_rate_percent	Collection Rate Percentage	Cash collected ÷ billed revenue x 100%	numeric
distn_loss_percent	Distribution loss Percentage	Share of energy lost in distribution (%)	numeric
transmission_loss_percent	Transmission loss Percentage	Share of energy lost in transmission (%)	numeric
rev_per_kwh	Revenue per kWh		numeric
avg_cost_per_kwh	Average Total Cost per kWh		numeric
net_debt_equity_ratio	Net Debt to Equity Ratio	Total Liability/Total Equity	numeric
DSCR	Debt Service Cover Ratio	Net Operating Income/Total Debt Service	numeric
annual_net_profit_percent	Annual Net profit (Loss) Percentage	Net profit divided by revenue x100%	numeric
annual_EBITDA_margin_percent	Annual EBITDA Margin Percentage	$(\text{Revenue} - (\text{primary energy, employee benefit expense, impairment of financial assets, impairment of other assets and other expenses}))/\text{Revenue} \times 100\%$	numeric
capital_inv_rev_ratio	Capital Investment to Revenues Ratio (% of utility revenue)	CAPEX ÷ total revenue × 100	numeric
transmission_distn_expansion_rate	Transmission/Distribution Expansion Rates	Change in km of lines, new substations	numeric
private_sector_power_gen_planned	Private Sector Participation in Power Generation - Planned (MW)	Preparing for Close and Under Construction Projects - Generation by Independent Power Producers	numeric
private_sector_power_gen_commercial	Private Sector Participation in Power Generation - Commercial Operation (MW)	Existing - Generation by Independent Power Producers	numeric
capacity_additions	Capacity Additions (MW)	New generation MW installed annually	numeric

installed_gen_capacity	Installed generation capacity (MW)	Maximum output of country's utility power system	numeric
total_installed_variable_renewables_capacity	Total installed variable renewables capacity	Wind, solar PV, CSP, and other Res	numeric
renewables_share_gen_mix_percent	Renewables Share in Generation Mix	Renewables = (GWh from RE ÷ total GWh) × 100	numeric
total_direct_indirect_emissions	Total direct and indirect emissions (Scope 1 and Scope 2)	Scope 1 and Scope 2 emissions (tCO2e)	numeric
renewable_target_wind	Renewables target for Wind	% of generation from RE sources	numeric
renewable_target_solar	Renewables target for Solar	% of generation from RE sources	numeric
renewable_target_storage	Renewables target for Storage	% of generation from RE sources	numeric
renewable_target_embedded_gen	Renewables target for Embedded Generation	% of generation from RE sources	numeric
